Embracing the Summer Drive

Before we dive into summer, we are excited to share our latest updates and developments. We are on the home stretch of PrepDSpace4Mobility - here are opportunities to listen, engage, and get actively involved in our project.

The EMDS In Practice

Can the EMDS make it easier to travel? On **5 July**, a line-up of renowned speakers working in the data and mobility sector elaborates from a practical and strategic perspective how the common European mobility data space will transform the way we move. Register now and secure your spot to join this engaging discussion.

We Want to Hear From You

We value your feedback and your viewpoints. To gain more concrete industry insights, we have shortened our survey on data sources and data sharing initiatives. Make your voice heard and propose the building blocks you want to see taken up in the EMDS.

Exploring Concrete Application Domains

Our last expert workshop takes place on **14 July 09:30 – 12:30 CET**. Register now to delve into **four specific application domains** within the field of Intelligent Transport Systems (DFRS, TM2.0, TN-ITS, and MaaS) and their requirements. Don't miss this opportunity to engage with European experts and shape the EMDS with us!

experts and shape the EMDS with us!

Agenda and Registration

We look forward to connecting with you soon!

Best,

The PrepDSpace4Mobility Team
